EXPERIENCE

Pai, Stripe Partner - Remote | **Flutter Developer** | April 2025 - Present

At Pai, I work on multiple simultaneous projects, specifically mobile apps with Flutter. On a day-to-day basis, I set up projects with all the necessary infrastructure to ensure quality. I hold meetings with clients, teams, and PMs for the implementation of new features.

Greelow - Remote - | **Flutter Developer** | Feb 2025 - Apr 2025

At Greelow, I worked hand in hand with a large team of developers for the Banorte bank client, developing secure features for their processes, having direct contact with Banorte to address required requests, and ensuring a design identical to figma.

Dyshez - Remote | **Flutter Developer** | Aug 2024 - Jan 2025

At Dyshez, I implemented Typesense as an advanced search engine, Doppler for secure secret management, and generated technical documentation for the entire app's workflows. My time at Dyshez focused on improving timelines, process quality, and incorporating new technologies.

Gintec Aply - México | **Flutter Developer** | Apr 2023 - Apr2024

As a project lead with a small but dynamic team specializing in mobile app development. Our focus was working closely with the client and UI/UX designer, generating weekly deliveries and ensuring process quality and efficiency.

PROJECTS

Colorinfinity - Mobile

Lot buying and selling app, with administration for buyer and seller users.

[Colorinfinity PlayStore](#)

Bineo Banorte Bank - Mobile

Account bank app for the well-known bank Banorte.

[Bineo PlayStore](#)

Dyshez - Mobile

Food delivery app with a very interesting twist. Open to the public soon.

[Dyshez PlayStore](#)

Habitan-t App - Mobile

Condominium management app. Manages access to private condominiums.
